## PERSONAL STATEMENT

I am looking for the opportunity to work in an environment that will reward and encourage personal development. I am a driven individual and crave a structured and challenging work environment. I am thoroughly enjoying the work I currently do and I would like the opportunity to work with a team that has a passion for agile practises, clean code and innovative solutions. I regularly attend various meet-ups \*\* although they are now hosted on zoom\*\* such as Lean Agile, Manchester JS and CodeUp Stockport. I am passionate about software development and through hard work and determination I am hoping to turn a hobby into a profession.

To further my development I chose to attending various hacks as it would give me the opportunity to meet other developers and work with people who have decades of experience in this field. I value the community and I hope as my career develops I can contribute to the development open source projects. My first contribution is the following NPM package [[https://www.npmjs.com/package/files2file\\_json](https://www.npmjs.com/package/files2file_json)] although simple it will be of use to many Northcoders students when they come to solve some of their backend Kata's. Attending monthly meet ups and hacks have taught me that great teams are built from a broad coalition of ability. Having working with developers with a broad range of experience and knowledge I have found that I grow fastest when those around me challenge what I have already learnt and allow me to take responsibility for the solution. I am hoping to join an employer that has high expectations of their developers and will allow me to work with the latest technologies in the industry.

## CORE SKILLS

Strong fundamental skills in Javascript and a good competent understanding of various backend and frontend development technologies.

Confident building and deploying mobile or web apps using MVC pattern & full Test Driven Development. I am familiar with Kanban and scrum working methods. I have experience with the following technologies React, SASS, LESS, JEST, KNEX, Mocha, Chai, Express, MongoDB, Mongoose, React Native, REST, GraphQL, MySQL, Firebase Auth & Realtime Database, NPM. To demonstrate proficiency in the technologies above I have various projects hosted please see my portfolio [<https://tim0git.github.io/Portfolio-2020/>]. Alternative I have taken the LinkedIn Skills assessments to further demonstrate my competence with some of the above.

Currently I have begun to expand my backend skillset and I am currently studying to take the AWS Developer certification. I am familiar with Infrastructure as code technologies such as Terraform and AWS Cloud Formation. Furthermore I am confident deploying server less technologies such as API Gateway, lambda, EC2, RDS instance ect. I am a big fan of "uncle bob" and my current reading list consists of Clean Code, Clean architecture and the various Linux academy study materials for AWS developer certification.

## EMPLOYMENT HISTORY

	Cheshire Digital Limited
June 2020 - Present	<u>FullStack React Native Mobile Developer</u>  Northcoders Graduate
April 2020 - June 2020	<u>FullStack Javascript Developer- graduate June 2020</u>  <u>Lookers Volvo</u>
Aug 2019 - April 2020	<u>Sales Manager</u>  <u>PSA Retail UK</u>
July 2015 - August 2019	<u>Sales Manager</u>  <u>Stoneacre Motor Group</u>
July 12 - July 15	<u>Franchise Manager</u>  <u>Hyde Group Engineering</u>
Sept 2008 – Oct 2010	<u>Junior Aerospace Engineer</u>

## EDUCATION & QUALIFICATIONS

2010 – 2012	The University of Bolton <u>BEng Mechanical Engineering - Graduate 2012, 2:1</u>
2007 – 2008	Southampton University <u>BEng Composite Materials</u>
2005 – 2008	Truro College Mathematics Physics English Literature Psychology

## PROFESSIONAL DEVELOPMENT

I have attended Hack the North 4.0 & Devpost Hack April.

Attended WWDC 2020 (Arm Macs and X Code12 ? It is an exciting time to be a developer!)

I attend developer conferences such as gitHub satellite and Microsoft Build.

Complete regular coding lessons on platforms such as code academy, free codecamp & Udemy.

Currently studying to sit the AWS developer certificate.

I shall be attending React Native RNEU2020 VIRTUAL EDITION & AWS Micro-services 2020 in September.
